

Town of Marshfield, MA Site Map for Massachusetts Technology Wind Collaborative
(MTC) Site Survey Application
March 2009

These sites are part of a preliminary application that has been submitted to the Massachusetts Technology Wind Collaborative (MTC). The MTC will review the sites to determine if they are suitable or unsuitable for a wind turbine. Based on the results of the initial review, the town may decide to request the MTC to conduct a Feasibility study.

The sites are:

1. Marshfield High School site,
2. Carolina Hill site and
3. Rexhame Beach site.

The Wind Site survey application contains more specific information about the sites.
